Course Title: **Speed is the New Green**
Course ID: **0920018337**

Description

High performance flexible and rigid doors are designed for fast operation and longevity. Learn about their environmental attributes and useful information for properly applying these doors to building projects. Watch brief video clips that provide examples of operation, safety and ease of repair in various applications.

Method of Delivery

'Lunch-and-Learn' classroom setting, presented in-person via Microsoft PowerPoint multi-media slideshow.

Cost of Attendance

There is no cost for this program. Hörmann High Performance Doors sponsors this course and is offered complimentary.
